HEAT-ASSISTED TOP ROLLER LAMINATOR

NEW

**TOUCH
SCREEN**

EASY AIR

Wide-format heat-assisted top roller professional laminator (up to 60°C). It allows laminating, mounting images on panels, applying application-tape and double-sided adhesive. For small and medium volumes.

EASY AIR HEAT-ASSISTED TOP ROLLER LAMINATOR

Reliable performance. Easy operation.

Easy Air is a large-format professional laminator designed to deliver reliability, ease of use, and accessible professional lamination.

With a working temperature of **up to 60°C** and a **new intuitive touchscreen software**, Easy Air is suitable for laminating a variety of flexible materials, ensuring consistent and reliable results for everyday applications.

**The essential solution
for professional lamination.**

✓ COST-EFFECTIVE

An accessible, productive laminator delivering reliable results, designed to maximize the value of your investment

✓ WORKING FLEXIBILITY UP TO 60°C **NEW**

It mounts images on panels, applies double-sided adhesive films, application tape and protective films

✓ EASY TO USE **NEW**

NEW touch screen display and renovated graphic design with intuitive settings of lamination parameters

✓ HANDS-FREE OPERATIONS

Pneumatic lifting/lowering of the upper roller via control panel. **NEW:** lowering also with the smart foot pedal

✓ TIME SAVING

Easy adjustments of the media thanks to the tilting-steel front table and the ergonomic position of the shafts

✓ INTUITIVE PRESSURE CONTROL

Thanks to the pressure regulator and the gauge

✓ PRECISE AND SAFE TRIMMING

Cutting unit with titanium coated blades, durable over time, for greater precision and long-term safety

✓ LONG-TERM RELIABILITY AND SAFETY

Designed to ensure stable and safe operation over time. The robust structure and selected components guarantee operational continuity and operator protection

✓ LOW MAINTENANCE COSTS

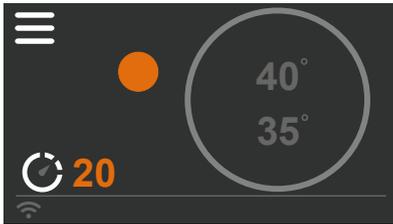

Reduced maintenance, intuitive operation, and low costs allow you to keep productivity high without impacting the budget

✓ MADE IN ITALY

Designed and manufactured in Italy with Flexa guarantee of pre-sales, after-sales and maintenance

LAMINATING WITH A TOUCH

The **innovative graphic design** of the software allows, with a **simple touch**, to set the most important parameters such as temperature and speed with **absolute precision**, achieving quality and consistently repeatable results.

Setting of temperature and speed
